

## CCTV

### DATA SHEET

Use CCTV as a visual deterrent to thieves and vandals from carrying out illegal activities on your site. Choose from a full installed system or a portable tower solution.

## Features & Benefits

### Fully Installed CCTV

- 24/7 to protect your premises around the clock.
- Out of hours monitoring for our security and peace of mind.
- Identifies suspicious activity.
- A platform for first response - officers monitor your site and can deploy a team of responders to your premises.
- Can immediately alert the police of an emergency.
- HD megapixel technology with unparalleled playback image quality.
- Uses the latest camera technology to provide exceptionally sharp images even in low light conditions both day and night.
- Quick and easy installation.

### Rapid Deployment Tower

- A simple and affordable robust security system.
- Advanced surveillance systems with seamless connectivity and A1 customisation.
- CPNI and Secured by Design approved detection software.
- Fully monitored with live audio.
- Mains or temporary power with weekend battery back-up.
- Deployed and commissioned in under 2 hours.
- Multi-function and customisable: security, safety, data collection, video streaming.
- Aesthetically suitable appearance.
- Modular system for easy upgrades as they become available.
- Optional floodlighting.
